

M. Fahril Ilmi

Gameplay & Tools Programmer (Unity)

Game Technology student at PENS and co-founder of A FAIR Studio. I build gameplay systems and Unity editor tools, and have shipped two games on Steam. Looking for a Unity programming internship.

SELECTED PROJECTS

Little Mayor

City builder, team of 5, 2026

2nd Place, Gameseed 2026

- Lead gameplay programmer: grid, multi-pass A* pathfinding, building placement and resident AI.
- Goods economy with stock reservations, plus a custom URP outline renderer light enough for WebGL.

WING-IT

Shoot-'em-up, team of 5, 2025-26

1st Place and Best Visual, GIMERSIA 2025 · Released on Steam

- Multi-phase boss framework and an Inspector-driven attack sequencer, shared by both bosses.
- Pooled bullets and enemy waves, six weapons, co-op boss targeting and gamepad-friendly menus.

store.steampowered.com/app/4201740

Zero One Protocol

Co-op platformer, team of 5, 2025-26

Finalist, GEMASTIK XVIII · Released on Steam

- Multi-gamepad co-op input (keyboard, separate gamepads, touch) with disconnect fallback.
- Steamworks.NET leaderboards and achievements; builds for Windows, Steam Deck, macOS, Android, iOS.

store.steampowered.com/app/4138940

Ice Tea Tycoon

Tycoon sim, team of 5, 2025

1st Place, KMIPN VII 2025

- Customer simulation: demand and pricing model, NavMesh customers and queues.
- Balancing tool that scored all 1,400 recipe combinations.
